Summary

Full-Stack Developer proficient in Java, JavaScript, Python, and SQL. Experienced in building end-to-end applications, integrating Blockchain architecture and Machine Learning to solve complex industrial problems. Focused on delivering scalable, high-impact software solutions with clean, efficient code.

Education

10/2022 – 06/2026 **B.Tech.**, Tatyasaheb Kore Institute of Engineering and Technology, Kolhapur
CGPA: 8.71

07/2020 – 03/2022 **HSC (Higher Secondary Certificate)** , Shree Sangmeshwar College, Solapur

06/2019 – 03/2020 **SSC (Secondary School Certificate)**, Umabai Shravika High School, Solapur

Skills

Programming Languages: Java, JavaScript, Python, C++, SQL.
Web Technologies: HTML5, CSS3, React.js, Node.js, Streamlit
Developer Tools: VS Code, Eclipse, Git, GitHub
Databases: MySQL, MongoDB
CS Fundamentals: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, BlockChain, Machine Learning

Work Experience

Promaxsys Software Solutions (Internship) Jan 2026 – June 2026

- Worked on the AI for MSME Project to help or automate working of Enterprices.
- Developed responsive cleaning services web application using the PERN stack to connect local users with service professionals.

Projects

TenderChain: Blockchain-Based Public Tender and Fund Allocation Sep 2025 – May 2026

Tech Stack: React.js, Node.js, Express, MongoDB, Python, Solidity, Ethers.js
Built an autonomous Web3 tender platform combining React/Node.js, Python NLP (TF-IDF), and TensorFlow vision models to drive trustless Ethereum Smart Escrow disbursements based on real-world milestone verification.

Automated Resume Screening and Ranking System Jan 2025 – Apr 2025

Tech Stack: Python, Machine Learning, Streamlit
Built a Python–Streamlit web app to automate the initial stages of recruitment. Implemented TF-IDF and Cosine Similarity using Scikit-learn for resume–job description matching. Integrated keyword-based screening and ranking for multiple uploaded resumes.

Certifications

- Java Full Stack — Eduskill (2025)
- Learn JavaScript — IBM SkillsBuild (2026)
- Generative AI — Oracle (2025)
